

Become a part of

# Million Trees Miami

and you can change the world.

"By greening Miami-Dade with trees, we are creating attractive gateways; enhancing the quality of life for our residents, employees and visitors; and beginning a legacy that lasts generations."

- CIAB Chairman, Commissioner Dennis C. Moss, District 9

## What Is Million Trees Miami?

Million Trees Miami Campaign is a community-wide effort to plant 1 million trees by 2020 in order to achieve a 30% tree canopy cover for Miami-Dade County. Launched by the Community Image Advisory Board (CIAB), this campaign promotes a healthy and sustainable urban forest to achieve social, economic, and environmental benefits.

## Why Plant a Tree?

### 1 **Trees Help Community Life:**

Trees can add up to 15% to the value of your home by making neighborhoods more attractive, quieter and cooler.

### 2 **Trees Clean our Water and Air:**

Miami-Dade's trees remove 5,425 tons of carbon from the air each year, improving air quality. Trees reduce storm water runoff by making the soil more absorbent.

### 3 **Trees Save Energy and Money:**

Trees provide essential shade and if placed properly, they can reduce home cooling costs by 15-30%.

## How You Can Help:

- Participate in the Adopt-A-Tree program
- Plan your community's tree planting
- Volunteer for other tree planting events
- Find out the best tree for your neighborhood
- **Register your tree online**
